# FULLY HUMAN ANTIBODY DISCOVERY PLATFORM

*rapid. robust. reliable*

## ULTRA-FAST **HIT DISCOVERY**

natural antibody sequences from  
superior universal germline libraries  
direct, targeted in vitro selection on cells within weeks  
no animal use, low toxicity & immunogenicity

## EFFICIENT **LEAD DEVELOPMENT**

close-to-germline candidates  
all antibody formats, all therapeutic indications  
robust process, high success rates

## ADVANCED **RESEARCH**

versatile, universally applicable technology  
smooth translation from bench to bedside  
innovative research & diagnostic tools

## FLEXIBLE **COLLABORATION**

CRO: Fee-for-service projects & flexible license options  
collaborative development  
outlicensing of internal lead candidates

**25+**  
years of  
experience
