### Biopharma Capabilities

2022

### Who we are:

**Years** In Business

1000+ Turnkey **Projects** 

3,600m<sup>2</sup> Office & Workshop **Space** 

ISO 9001

ISO 45001

### Who we work with:

8/10

World's Largest **Bio Pharma** Companies

Top 2

World's Largest **Soft Drinks** Companies

3/4

World's Top **Alcoholic Beverage Producers** 

Top 3

Irish Dairy **Processors** 

Allergan Bristol Myers Squibb DIAGEO

REGENERON

**U** NOVARTIS

teva

Lonza

**Reference Sites Across** Ireland, Belgium, Spain & the Netherlands

Trusted by: 8 of World's Top 10 **Biotech Companies.** 

**Collaboration with** EPCs and direct to **End Users** 

7 ISPE FOYA Category **Winning Projects** 

### **BioPharma System Expertise**

(Depth, Harvest, Viral, Nano, TFF/UFDF)

Filtration

Chromatography Liquid Handling

Buffer Dilution & Distribution

High Temperature

D/S & Purification Fill Finish Upstream **Primary Capture** 

WFI&PW Distribution & POU

Clean-In-Place

**TCUs** 

**Biowaste** Deactivation & Neutralisation

Single Use

**Utilities** 

### Filtration System Capabilities

#### **Technology Expertise**

- Nano Filtration
- Depth & Harvest Filtration
- POD Filtration
- Viral Filtration
- TFF/Ultrafiltration Diafiltration

- Experience and expertise with multiple manufacturers of filters and media.
- Fully customized solutions to match customer process, ergonomics and site considerations
- Full FAT (Including SIP) capabilities at our state-of-the-art facility

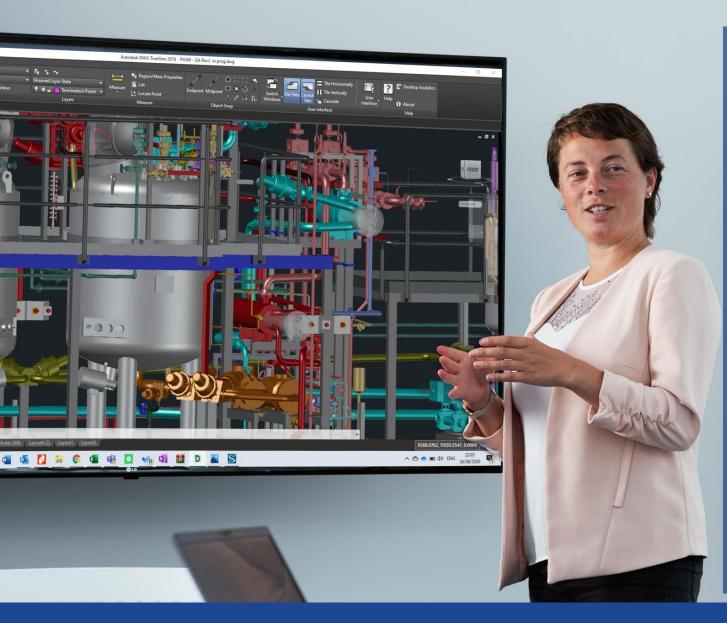

## Chromatography Liquid Handling Skid System Capabilities

### Technology Expertise

- Every Chromatography skid is unique and we work with clients to design, build and test a system to meet their requirements.
- Many of our Chromatography skids integrate inline dilution
- Experience ranging from small refrigerated systems to large systems feeding 2.4m diameter columns

#### **Equipment & Platform Flexibility**

• Experience and expertise with many manufacturers of equipment and components. We incorporate the customer's preferred equipment.

### Full Project Scope Capabilities

- Process Design
  - P&IDs, HAZOP, GAs, BOMs, Equipment Specifications, Layouts, URS (With Client), Automation & Electrical Scoping
- Commercial Proposals
  - Front End & Budget
  - Fixed price Lump Sum
  - Time & Material
- Project Management
- Detailed Design
- Quality Control
- Factory & Site Testing
- Handover Documentation
- Operator & Technician Training
- After Sales Support

## Thank You.
