Welcome reception

Welcome reception

Markthalle Basel

Sunday, May 4, 2025 | 17:30 - 20:30 | Markthalle Basel, Steinentorberg 20

The Swiss Biotech Day will once again provide a platform in Basel for networking, engaging discussions, and the exploration of advancements in R&D, manufacturing, data management, artificial intelligence, and innovative financing.

This inaugural gathering provides a prime networking opportunity, allowing attendees to connect and engage with peers before the event officially starts. Join more than 1'500 other participants who have signed up for this reception for an aperitif and an informal fun networking evening in anticipation of the lively days ahead.

Kindly supported by

Cooley

Housekeeping notes

Food will be served at the times and locations below. Beverages are available in all areas throughout the event.

Monday, May 5, 2025

Eventhall, level 0	Foyer, level 2
11:30 - 13:30 Lunch	12:00 - 13:30 Lunch
18:00 - 19:00 International reception in the Global Village

Sweepstake

Collect the flag stickers and win attractive prizes

How to play

- ▶ Collect the 25 stickers of the Global Village delegations (see p. 25).
- ▶ Glue the stickers on the right name on the inside.
- ▶ Trade your duplicate stickers e.g. during your 1:1 meetings or networking breaks.
- ▶ Once completed, bring this sheet to the Swiss Biotech Association booths #1 and #114 or the Life Science Cares booth #SC5.

We select winners three times

- ▶ Evening reception, **May 5, 18:45**, Foyer, Congress Center, level 2
- ▶ Market Place reception, **May 6, 16:00**, Eventhall, level 0
- ▶ Farewell reception, **May 6, 17:00**, Foyer, Congress Center, level 2

You can win:

▶ Swiss Biotech Day 2026 tickets

Join us at the next Swiss Biotech Day on May 4-5, 2026 with a free ticket.

▶ Glacier Express ride

Take a journey over daredevil viaducts, through countless tunnels and unique landscapes, and enjoy a dinner in Zermatt.

▶ Hot air balloon flight

Enjoy the breathtaking view of glittering lakes, fairytale nature, magnificent mountain scenery, and dine where you land.

▶ Lucerne boat tour

Be indulged with an overnight stay in Lucerne and take in unbeatable views of the city and mountains from the lake as you cruise by.

▶ Eurovision Song Contest 2025 entries

Experience the ESC final in the Arena Plus.

Plenary session

12:30-14:00 Plenary session I

Room Montreal

Moderation: **Monika Jones**

12:30 Welcome local host

Kaspar Sutter, Head of the Department of Economic, Social and Environmental Affairs, Canton of Basel-Stadt

12:35 Welcome organizer

Michael Altorfer, CEO, Swiss Biotech Association

12:45 Botnar Institute of Immune Engineering (BIIE)

Steven Wilson, CEO, & **Sai Reddy**, Scientific Director

13:00 Deep Tech Nation Switzerland Foundation

Dario My, Head Venture Hub Switzerland

13:15 Navigating the current environment as a biotechnology company – observations and tactics on capital raising, strategic collaborations and M&A

Part I

Host: **Kenneth Krisko**, Partner, Cooley

Panelists:

Availeigh Milne, Global Head of Business Development Strategy & Practice, Pharma Partnering, F. Hoffmann-La Roche

Tahera Kan, Vice President, Head of Precision Medicine, Johnson & Johnson

Luca Santarelli, Founder, Chief Executive Officer, and Chairman of the Board, Windward Bio

13:40 Part II

Host: **Patrick Amstutz**, CEO, Molecular Partners, & President, Swiss Biotech Association

Panelists:

Richard Girling, Partner, Centerview Partners

Div Gupta, Partner, Cooley

David Urech, CEO, Numab Therapeutics

Emerging biotech companies

Presented by **PUREOS**
BIOVENTURES

Time	Company	Room Singapore
14:30	Pureos Bioventures	
14:45	NXI Therapeutics

Pitching sessions

Presented by  **Nucleate** Switzerland

16:45-17:30 Pitch 1: Nucleate start-ups Room Singapore

BioPitch: Catalyzing innovation at Swiss Biotech Day with Nucleate

Discover groundbreaking innovations from Switzerland's early-stage life science start-ups at Nucleate Switzerland's pitching session. These start-ups, part of Nucleate's Activator program, are revolutionizing human health challenges. Run by academic trainees, Nucleate fosters technology commercialization, offering equity-free support and connecting budding entrepreneurs with a prestigious advisor network.

Moderation: **Börte Emiroglu**, Leadership member, Nucleate | **Ebru Topcu**, Leadership member, Nucleate | **Tianlan Cai**, Leadership member, Nucleate

Jury: **Katharina Kreymborg**, SVP, CSO, Partner, Curie.Bio | **Daniel Bode**, Analyst, Forbion

16:45	Introduction	
16:50	Prabolis	17:11 CALDRE
16:57	Nexendia	17:18 InSEIT

Panel discussions & pitching sessions

Presented by

16:45-18:30 Panel 9 & Pitch 3: Digital & healthtech chapter

Room Montreal

Harnessing AI & big data: The next frontier in biotech and healthcare

Artificial intelligence and big data are revolutionizing biotech and healthcare, driving breakthroughs in precision medicine, clinical decision-making, and drug discovery. This panel will showcase how adaptive or autonomous AI models enhance decision-making and improve industry performance and productivity.

Additionally, the discussion will emphasize the importance of robust AI infrastructure in creating scalable, high-performance healthcare solutions, while also highlighting the necessity of strong, high-quality data for accurate AI concepts.

Experts will delve into advancements in clinical development productivity, patient data analytics, AI-powered diagnostics, and the agent-based concepts, while also highlighting local initiatives designed to foster collaboration and innovation in healthcare AI.

Moderation: **Pablo Nieto**, Principal, IQVIA

Panelists:

Eva-Maria Hempe, Head of Healthcare and Life Sciences EMEA, NVIDIA

Erwin Böttinger, Director, Wyss Center for Bio and Neuroengineering

Tom Baker, VP and GM, IQVIA Switzerland & Israel

Philippe Menu, EVP, Chief Medical Officer & Chief Product Officer, Sophia Genetics

AI & digital health: Startups shaping the future of healthcare

This pitching session highlights startups leveraging digital health technologies and AI to drive breakthroughs in healthcare, therapeutic development and personalized medicine. Presenters will explore how these technologies are pushing the boundaries of innovation, in combination with clinical trial platforms, brain health diagnostics, single-cell sequencing, genomic data management, robotics-integrated platforms and drug discovery solutions. Join experts and investors as they discuss how cutting-edge digital innovations are shaping the future of healthcare and techbio.

Moderation: **Carine Poussin**, Head of AI for Life Sciences, CSEM

Jury: **Eva-Maria Hempe**, Head of Healthcare and Life Sciences EMEA, NVIDIA |

Matthias Hermann, Head of Digital Health Fund, Tenity | **Ursula Costa**, Director, DayOne |

Tom Baker, VP and GM, IQVIA | **Philippe Menu**, EVP, Sophia Genetics

Panel discussions

Presented by  **Fortrea**

14:30-15:15 Panel 1

MCH Lounge

Optimizing study outcomes: Creating an evidence-based value proposition for commercial success

This session delves into methods to improve study outcomes by combining scientific rigor with a commercially driven mindset, ensuring that clinical development meets the expectations of payers, health technology assessment requirements, and considerations of real-world evidence (RWE).

Furthermore, we will address the crucial function of real-world data (RWD), real-world evidence in enhancing clinical trial results, supporting market surveillance, long-term value for payers.

Moderation: **Laura Vidal Boixader**, Vice President, Therapeutic Strategy Leader, Fortrea

Panelists:

Juliane Bernholz, CEO, AM-Pharma

Adrian Cassidy, GMA Evidence Generation Head, Novartis

John Doyle, Chief Scientific Officer, Fortrea

Presented by  **KennedyFitch**  **headcount**

15:30-16:15 Panel 4

MCH Lounge

Next-gen biotech: Human capital (r)evolution: Mindset, skills & culture for a future-ready workforce

As science and biotech leap forward, what will it mean for people, skills and our values?

This panel explores the mindset, skills, and culture driving the future of biotech.

Beyond retention: What truly keeps biotech professionals engaged: purpose, leadership, career pathways, or something else?

- Flexibility vs. productivity: Can biotech have both? Will flexibility define the next era of biotech work culture and mindset?

- Adapting to biotech's evolution: How shifting business models, technology, and generational shifts shape skills and culture.

Moderation: **Oliver Kingdon**, Head of Recruitment, EMEA, Roche Pharmaceuticals

Panelists:

Annet Zippel, Partner, KennedyFitch

Maurice Thornton, General Manager, headcount

Sarah Holmes Klotz, Global Head of People and Culture Santhera

Franz-Werner Haas, CEO, Limmatech Biologics

Panel discussions

Presented by

16:30-17:15 Panel 10

MCH Lounge

Advanced therapies: From research to patient access - opportunities and challenges

Advanced therapies hold great promise for patients, including those with rare diseases, but face a range of challenges, such as technological hurdles, regulatory and quality complexities, and access limitations. This panel addresses these challenges and explores innovative approaches and opportunities to overcome these obstacles, focusing also on how the collaboration between regulators, industry, and patients can improve access to advanced therapies.

Moderation: **Nathalie Schober-Ladani**, Head Commercial, Luminance Health

Panelists:

Julia Djonova, Leiterin Advanced Therapy Medicinal Products, Swissmedic

Ghada Ibrahim, President, PACRT-Geneva

Tom Eaton, Co-Founder, Limula

Joanna Hanley, Head Quality Assurance, Luminance Health

Presented by **Baker McKenzie**

17:30-18:15 Panel 13

MCH Lounge

Navigating the future: Life sciences deal-making amid geopolitical headwinds

The session will dive into the current trends in life sciences deal-making and upcoming challenges due to the current geopolitical headwinds. We will be joined by experts from investment banking, biotech and big pharma to explore the challenges and opportunities that the industry currently faces. The discussion will delve into:

- The impact of the new U.S. administration on the industry
- How interest rate policies are shaping financial strategies
- Key insights on IPO trends and M&A activities
- Licensing opportunities and global influences, including China's biotech advancements

Moderation: **Julia Schieber**, Partner (Zurich); Baker McKenzie

Panelists:

Oren Livne, Partner (New York), Baker McKenzie

Lev Kogon, Vice President, Head of Business Development, Nykode Therapeutics

Konrad Gehrke, Director Healthcare Investment Banking, Bank of America

Panel discussions

Presented by **SARTORIUS**

14:30-15:15 Panel 2

Marriott Hotel room 1+2

Re-thinking downstream processing intensification: A new perspective

Due to rising costs and competition, the biopharma industry seeks cost, time, and resource savings while enhancing yield and quality. To stay competitive, therapeutic protein costs must drop below USD 50 / gram. Global challenges like aging populations and climate change pressure the industry to meet sustainability targets. Sartorius' PI technologies offer solutions, enabling robust implementation. This panel will discuss managing information for effective PI implementation, maximizing operational value, and exploring industry perspectives on manufacturing technologies.

Moderation: **Geert Lissens**, Head of PM Filtration & TFF Systems, Sartorius

Panelists:

Sonja Berensmeier, Chair of Bioseparation Engineering, TU Munich

Eduard Ayuso, Chief Technology Officer, Dinamix

Presented by

15:30-16:15 Panel 5

Marriott Hotel room 1+2

Small molecule lead finding for challenging targets: Lessons from GLP-1 receptor modulators

G protein-coupled receptors (GPCRs) are not only one of the largest classes of signaling molecules in the human genome, they are also serving as target receptor for about one third of approved drugs. Sensing a great variety of different ligands from proteins they also differ greatly in the likelihood to identify small molecule modulators ('druggability').

The panel will discuss past learnings and opportunities of our growing tool box in discovery research to tackle difficult GPCR and other targets.

Moderation: **Joerg Hueser**, Member Scientific Advisory Board, Axxam

Panelists:

Michael Hennig, CEO, leadXpro

Zoë Johnson, CSO/CDO, Molecule to Medicine

Frederic Bassilana, Executive Director Discovery Services, Novartis Biomedical Research

Panel discussions

Presented by **Cetacea CONSULTING** **METRONOMIA**

16:30-17:15 Panel 11

14:30-15:15 Panel 3

Marriott Hotel room 3+4+5

Biotech investor strategy in a dynamic market

In this panel discussion, Citeline and leading European investors will discuss the latest trends that are shaping venture capital deployment in innovative biotech startups, both in Switzerland and beyond. With recent years seeing investment concentrated in fewer companies with larger raises, are VCs broadening their focus? Increasing competition in high-activity therapeutic areas and technologies leaves less room to add value, but remains a core focus for potential pharma partners. This session will help biotech leaders stay ahead of market dynamics and hone their deal-making pitch.

Moderation: **Kevin Grogan**, Managing Editor Europe, Commercial, Scrip

Panelists:

Anta Gkelou, Partner, Sofinnova Capital Strategy

Dani Bach, Managing Partner, Limani Partners

Jean-Philipp Kruse, Senior Director, Lilly Ventures

Presented by  **AliraHealth**
Patient-Enabled Solutions

15:30-16:15 Panel 6

Marriott Hotel room 3+4+5

From lab to market: The investor-innovator dynamic in biotech

Biotech innovation is a high-stakes game where ideas meet funding limits. In 2025, shifting investment cycles – from the metabolic disease boom to struggles in cell and gene therapies – reshape the landscape. Macroeconomic and political forces, including US research funding shifts and Europe's fragmented capital markets, add complexity. This panel explores how investors filter opportunities, which biotech sectors rise or fall, and what it takes to secure investment.

Moderation: **Joris Pezzini**, EVP, Biopharma, Alira Health

Panelists:

Pascale Eede, Associate, Apollo Health Ventures

Pierre Morgon, CEO, Ibex Therapeutics

Massimo Mineo, CEO, Neurolieve Biosciences

Kevin Hammon, Vice President, EQT Life Science

Panel discussions

Presented by  **MENARINI** group  **Cavenagh Health**.

16:30-17:15 Panel 12

Marriott Hotel room 3+4+5

AMR: A threat to patients' lives and modern medicine – time for immediate actions and sustainable solutions

This panel addresses AMR as a critical threat to patients' lives and the future of modern medicine. Moving beyond awareness, it focuses on actionable steps to drive innovation, boost the weak antibiotic pipeline, and establish sustainable access through effective push and pull incentives. The discussion will highlight antibiotics' role as life-saving enablers, their economic value, and the urgent need to recognize their contribution across disease areas. It will also explore big pharma's role, private investment strategies, and how to build a sustainable innovation ecosystem focused around biotech startups. Finally, the panel will consider how Switzerland and international stakeholders can operationalize the recent UNGA declaration, turning global commitments into measurable progress.

Moderation: **Guillermo Tramontin**, Associate Partner, Cavenagh Health

Panelists:

Najy Alsayed, Global Therapeutic Area Head - Infectious Diseases Menarini Group

Damiano de Felice, Chief of External Affairs CARB-X

Deepali Patel, Director, International Policy, AMR Action Fund

Marc Gitzinger, CEO and Founder, BioVersys

Presented by  **BeiGene**

17:30-18:15 Panel 15

Marriott Hotel room 3+4+5

Enhancing Europe's role as a global hub for oncology trials

Over the last few years, Europe has experienced a decline in oncology clinical trial activity, losing ground to the US, China, and Australia. Despite an overall increase in global oncology trials, site activation timelines have lengthened, and patient access to new therapies has slowed. This panel discussion will convene key stakeholders to explore strategies for strengthening Europe's clinical trial ecosystem and reclaiming its leadership in global oncology research.

Moderation: **Rute Marques**, CEO, ROK Communications

Panelists:

Pilar de la Rocha Mur, Head of Clinical Operations, EMEA, BeiGene

Anna Maria Frustaci, ASST Grande Ospedale Metropolitano Niguarda Milan

David Alsadius, Solid Tumor Franchise Lead, IQVIA

Alexander Natz, Director General, EUCOPE

Panel 7 & Pitch 4: Microbiome

Room Rio

Microbiome milestones: From market launch to future trends

Join us for a dynamic session featuring a panel discussion followed by an exciting pitching segment. Experts, investors, and biotech leaders will explore key achievements, challenges, and success factors in microbiome-based therapies. Gain valuable insights into the future of microbiome research and healthcare. Afterwards, innovative companies will present their cutting-edge solutions to a jury of experts.

Moderation: **Isma Hachi**, Director, IQVIA (overall moderation)

Tomas de Wouters, CEO, PharmaBiome (panel moderation)

Panelists:

Per Falk, CEO, GC Holdings

Isabelle de Cremoux, CEO, Seventure

Johanna Eliasson Vinterberg, Medical Director, Gastroenterology Therapeutic Area, Ferring Pharmaceuticals

Jonathan Chriqui, Chief Business Officer Maat Pharma

The pitching session aims to be an extension of the preceding panel with the goal to provide a platform for microbiome innovators in human health.

How to reach more patients faster: The promise of international collaboration and shared regulatory approval pathways

International collaboration is a key element of the Swiss innovation landscape. Early support to build bridges between experts from different countries and collaborative international regulatory approval pathways, such as ACCESS and Orbis, result in faster access for patients. In this panel discussion we will share different perspectives and experiences and provide insights into the opportunities created for patients.

Moderation: **Eveline Trachsel**, Head of Medicinal Product Authorisation and Vigilance, Swissmedic, Swiss Agency for Therapeutic Products

Panelists:

Corinne Wenger, Head of Regulatory Affairs, Roche Pharma (Schweiz)

Sabine Ledderhose, Head of Regulatory Affairs, Astra Zeneca

Sergio Cantoreggi, Chief Scientific Officer, Sintetica

Presented by  **Swiss Biotech Association****16:45-17:45 Pitch 5: International session****Verseau**

Global innovation showcase: Startups from the Global Village

Explore cutting-edge biotech startups from around the world, developing innovative products and technologies to address global health challenges. Join us to discover the future of biotech, hear from visionary founders, and uncover exciting investment opportunities.

Global Village

Presented by  **Swiss Biotech Association**Supported by  **SWITZERLAND GLOBAL ENTERPRISE** **Schweizerische Eidgenossenschaft****Global Village****Eventhall**

Welcome to the Global Village at the Swiss Biotech Day 2025 - The power of international collaboration

The Global Village, spearheaded by the **Swiss Biotech Association**, serves as a premier platform for fostering international collaboration and networking within the biotech and life sciences industries. In partnership with leading Swiss organizations, it offers a continuous, year-round gateway for global biotech clusters to forge and deepen strategic, long-term partnerships within Switzerland's thriving biotech ecosystem.

The **Global Village mission** is centered around:

- **Connecting global life sciences hubs with Swiss biotech leaders**
Use the **international reception (p. 29)** and **market place (p. 29)** to meet and connect with the international delegations, or simply visit them at their booth in the **Global Village area (p. 26)**.
- **Empowering international delegations**
Witness bilateral **roundtable discussions (p. 30)** tailored to international delegations looking to develop and strengthen long-term, sustainable business ties and collaborations with key decision-makers within the Swiss biotech ecosystem.
- **Driving collaborative excellence**
Join the **Global Village stream (pp. 24 & 49)**, including the **Global Village plenary session (p. 34)** where we showcase the power of international collaboration, promote the exchange of best practices, and support the development of joint initiatives that deliver mutual value and benefit all stakeholders involved.

Since its inception in 2022, the Global Village has attracted delegations from across **North and South America, Asia, Australia, and Europe**, reflecting its success in advancing global biotech collaboration.

This year, the Global Village is joined by a record number of **25 delegations** and all Swiss Biotech Day participants are welcome to attend and contribute to the planned sessions.

Find further information about the Global Village here →

Global Village

Booth Delegation

GV1 Oregon, USA

Participating companies:

Araceli Biosciences, Dextronix, Genentech, Oregon Bioscience Association, Rewire AI, State of Oregon – Business Oregon

GV2 Spain

Participating companies:

AseBio, Basque Health Cluster, BFlow, Biobide, Bioga, CIC bioGUNE, Cytes Biotechnologies, CZ Vaccines, GalChimia, Hiblab, Hifas da Terra, LiberaBio, Liof Pharma, Mikrobiomik, Protein Alternatives, Syspro, World Courier

GV3 Japan

Participating companies:

Asahi Kasei Corporation, ASKA Pharmaceutical, Astellas Pharma, Daiichi Sankyo, EA Pharma, FUJIFILM Corporation, Genesis Healthcare, Maruho, Murata Manufacturing, Nitto-Denko, ROHTO Pharmaceutical, Swiss Business Hub Japan, Teijin Holdings Europe, TOMOEGAWA Corporation, Yokogawa Innovation Switzerland

GV4 Brazil

Participating companies:

BioDecision Analytics, Brainlike, Fiocruz, Sindusfarma, Synvia

GV5 China

Participating companies:

Biocytogen, Canton Biologics, Dachao Biotechnology, Eyebright Medical Technology (Beijing), Shandong Jincheng Pharmaceutical Group, Shanghai Medicilon, Sichuan Huiyu Pharmaceutical, Swiss Business Hub China, Xtalpi

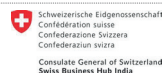

GV6 Italy

Participating companies:

Advaxia, Ampure, Biosphere, Exo Lab Italia, Genechron, Genenta Science, InSilicoTrials Technologies, Irbm, Italian Trade Agency, Regulatory Pharma Net, Security Pattern, Sense4Med, Service Biotech, Softmining, Studio Torta, Takis Biotech

GV7 India

Participating companies:

Apollo Hospitals Educational and Research Foundation, Clinixel Life Sciences, Equine Biotech, Mestastop Solutions, OneSource CDMO, Persistent, Sai Life, Swiss Business Hub India, Zasya Lifesciences

Global Village

Booth Delegation

GV8 Iran

Participating companies:

Aroko Bioengineering, AryoGen Pharmed, CinnaGen, NanoAlvand

GV9 Belgium

Participating companies:

Amyl Therapeutics, Catalent Gosselies, Catalya, CER Groupe, Convey-xo, DeuterOncology, e-Proteins, Estetra, Euroscreen Fast, Genko, Inchinn Therapeutics, International Drugs Development Institute, Kaneka Eurogentec, Lambda-X High Tech, Q1 Scientific, Qualiblood, Salamander U, Straticell, Telemecine Technologies, Wallonia Export and Investment Agency, Wallonia-Brussels International, Ynios Pharma

GV10 Netherlands

Participating companies:

AM-Pharma, BioConnection, Biotech Booster, GenomeScan, Health Holland, Loyens & Loeff, LUO Automation, Medace, Mimetas, Murata Electronics Europe, NFIA, Oncode accelerator, QPS Netherlands, RVO, Single Cell Discoveries, Siron Clinical, Tiofarma, TU Delft, Vitroscan

GV11 Nordic countries

Participating companies:

Cellectricon, CuraCell, Cytel, HealthCatalyst, Invest in Skåne, Mavatar, MVA, Pelago Bioscience, Smile Incubator, SwedenBIO, Ventri Labs

GV12 North Carolina, USA

Participating companies:

Adamas Nanotechnologies, AESARA, Codetta Bio, Economic Development Partnership of North Carolina, SmaBio Labs, Swabbot Solutions

GV13 Estonia

Participating companies:

Enterprise Estonia Biotech, Gearbox Biosciences, Health Founders Estonia, Helmes Software Development, Lanmer, Menken Trials, Migrevention, Ministry of Foreign Affairs of Estonia, Raumedic Estonia, Tartu Biotechnology Park, TBD Pharmatech

GV14 Heidelberg-Mannheim region, Germany

Participating companies:

AGC Biologics, BIMOVIS, bioRN Life Science Cluster, Heidelberg Pharma, Sciomics, Trans-Duodenal Concepts

Global Village

Booth Delegation

GV15 Rhineland-Palatinate, Germany

Participating companies:

biomindz Standortentwicklungsgesellschaft Mainz, Life Science Zentrum Mainz/ BioVation RLP, Midas Pharma, Ministry of Economic Affairs, Transport, Agriculture and Viniculture Rhineland-Palatinate, STRASSBURGER Filter

GV16 Czechia

Participating companies:

Adalid Sciences, DNAi, IOCB Tech, Prague.bio, Quinta Analytic, SCTbio

GV17 Taiwan

Participating companies:

Biomedical Translation Research Center (BioTReC), Academia Sinica, KriSan Biotech, Taiwan Bio Industry Organization

GV18 Greece

Participating companies:

ASTAT, Critica Pharmaceutical, Hellenic Biocluster, Oncolipsy, Pharmassist

GV19 Bavaria, Germany

Participating companies:

Bio^M Biotech Cluster Development, Invitris, IZB Martinsried, Tech Transfer at the University of Würzburg

GV20 Saxony, Germany

Participating companies:

biosaxony, Fraunhofer IZI, Intu Diagnostics, leap-up, Saxony Trade & Invest

GV21 Hong Kong

Participating companies:

InvestHK, Hong Kong-Shenzhen Innovation and Technology Park (HSITP), Office of Research and Knowledge Transfer Services (ORKTS) The Chinese University of Hong Kong, The Technology Transfer Unit (TTU) of the LKS Faculty of Medicine - The University of Hong Kong

GV22 Canada

Participating companies:

Dalriada Drug Discovery, Government of Canada/Trade Commissioner Service, KreaMedica, Lemay.ai, Solid State Pharma, Tatum Biosciences

Global Village

Booth Delegation

GV23 Australia

Participating companies:

Accelagen, Crux Biolabs, RDI Partners, Veritus Research

GV24 South Korea

Participating companies:

ANPOLY, Avataar, Decomposition, Deepsonbio, Eight, Embargo Media, Healthybody, Ilias, KOTRA, L-Base, Pohang City, Radahaim, Xbody

GV25 France

Participating companies:

Alcediag, Expertrials, HealthTech for Care, Lyophitech

May 5, 18:00-18:45 International reception

Eventhall

Join us for a dedicated networking reception at the Global Village, where participants can connect with 25 international delegations in a relaxed and engaging setting. The event will feature welcome remarks by Michael Altorfer, CEO of the Swiss Biotech Association, and a speech by Switzerland Global Enterprise (S-GE), a long-standing partner of the Global Village.

May 6, 15:30-16:30 Market place

Eventhall

The Market Place is the closing networking event of the Global Village, where international delegations will share drinks and snacks from their home countries—celebrating cultural diversity and global collaboration. Delegates will be invited to share their key achievements at Swiss Biotech Day and offer an outlook on future opportunities. The event will conclude with farewell speeches by Michael Altorfer, CEO, and Patrick Amstutz, President of the Board at the Swiss Biotech Association, including the announcement of this edition's Country Partnership of the Year.

Roundtable discussions

Please join us for roundtable discussions, aiming to facilitate partnerships and connect international representatives with the Swiss biotech industry for research, corporate collaborations, policy-making and investments.

Panel discussions & pitching sessions

Presented by **Deloitte.****09:00-09:45 Panel 17****Room Singapore**

Navigating the challenging financing landscape: Strategies for growth and exit

Capital raising and financing has become a major challenge for scale-up companies in today's risk-off environment. Investors have started to scrutinize opportunities more holistically and credibility is achieved through profitability considerations and a viable scale-up plan; a pure growth case is no longer sufficient. What are the remaining opportunities for growth and exit? How can a path towards higher return on investment be clearly articulated to potential investors?

This panel will delve into the complexities of the current financing landscape, equipping biotech executives and entrepreneurs with the knowledge and tools needed to navigate the challenging financing landscape and achieve their objectives.

Moderation: **Liam Baynes**, Partner - Audit & Assurance for Life Sciences, Deloitte | **Enada Ismailaj**, Senior Manager - Strategy, Risk and Transaction, Deloitte

Panelists:

Shared responsibility for biotech growth: Uniting academia, industry, leaders, and HR to support talent in challenging times

As big pharma shifts priorities and biotech start-ups struggle, scientists and professionals seek new opportunities in the Swiss life science ecosystem. Are we ready to harness this talent? What skills are essential? How can academia, HR, industry, associations, and government collaborate to bridge the gap for innovation and social impact?

This panel unites stakeholders to tackle these questions and invites you to help shape the future of biotech talent in Switzerland. Join the conversation!

Moderation: **Natasha Konstantinova**, Head talent pool & Academy, Swiss Biotech Association

Panel discussions & pitching sessions

Presented by **Syneos Health** **09:00-09:45 Panel 19****Marriott Hotel room 1+2**

Rethinking the fast lane: How Project Optimus impacts early oncology trials

This panel will explore the implications of implementing Project Optimus within early-stage oncology drug development. Discussion will focus on whether the initiative facilitates development acceleration through optimized dose selection, or whether it introduces potential delays in achieving key decision points.

Panelists will include representatives from the biotech sector, mid-sized pharmaceutical companies, a regulatory affairs expert, and a clinical oncologist specializing in early-phase oncology trials. Attendees will gain insights from diverse stakeholder perspectives and real-world experiences in applying Project Optimus principles across different oncology assets.

Moderation: **Jozsef Palatka**, VP, Medical Director, Syneos Health

Panelists:

Zohra Lomri, Executive Director Regulatory Affairs, Syneos Health

Workshop & Global Village plenary

Presented by  Trialize

09:00-09:45 Workshop

Room Rio

Build your clinical study in 15 minutes with Trialize AI

See how a modern approach can shave months off your setup, save thousands of hours during execution while de-risking your research. We'll showcase how Trialize, an AI-driven clinical trial automation platform, can reduce setup times by over 50%, save more than \$300K per study, and ensure real-time data insights to minimize the risk of missing endpoints. Our platform easily integrates with legacy systems, offers predictive risk alerts, and enables adaptive protocol updates - all from a unified dashboard.

MCH Lounge

Why take 10 years to launch a new biotech product when you can do it much faster?

Accelerating Biotech Innovation Through Digital Transformation: This panel explores how digital technologies can revolutionize the traditional 10-year biotech development cycle. Experts from startups, Big Pharma, and research discuss compression of time-to-market while maintaining quality and safety. Key topics include digital transformation, biotechnology innovations, physical-digital convergence, and sustainable approaches. The session showcases integrated solutions from lab automation to analytics that optimize the R&D-to-production lifecycle.

Driving R&D innovation using evolving technologies: Pragmatic perspectives

In an era where life sciences organizations are navigating an increasingly crowded landscape to bring complex therapies to market faster and more efficiently, innovation has become a necessity. Technologies such as AI/ML, and automation promise to revolutionize R&D, but successful utilization requires more than just technical capability. It demands a clear understanding of how to apply these technologies within operational and regulatory realities. Our panel brings together a diverse group of experts from across the ecosystem. The panelists will share their individual experiences and insights on balancing innovation and practicality to deliver solutions that are viable, scalable, and aligned with R&D objectives.

Licensing, partnerships and newco in the ADC space, and the critical role of CMC <p>The ADC industry is undergoing unprecedented growth, propelled by cutting-edge innovations and a wave of high-profile collaborations between multinational corporations (MNCs) and pioneering biotechs. Landmark deals (in USD) such as Pfizer's 43 billion acquisition of Seagen, AbbVie's 10 billion purchase of ImmunoGen, Genmab's 1.8 billion acquisition of the Chinese biotech ProfoundBio and Merck's potential 22 billion partnership with Daiichi Sankyo exemplify this trend, with investments surpassing 100 billion in partnerships and M&A since 2019. These alliances are accelerating the development of ADC therapies, blending scientific ingenuity with therapeutic promise. Yet, their success depends on robust chemistry, manufacturing, and controls (CMC) development, which ensures product quality, scalability, and regulatory compliance - critical pillars that transform innovative concepts into market-ready solutions. In this panel, we will examine how licensing, newco formation, and strategic partnerships are reshaping the ADC landscape and why high quality CMC is critical for the success of partnership deals during due diligence and post-deal product development.</p>

Raising a large VC round: Do's, don'ts, opportunities, risks and trends

Last year more than 10 Swiss biotechs and 50 European biotechs raised a financing round above USD 50 million. What did they do right, what did they have to commit to, and what could they share about the experience? As in previous years, we will again look at financing developments and trends and what this means for companies looking to raise money in 2025 and beyond. Join us to hear from a panel of VCs, CEOs and industry experts.

Moderation: **Peter Mozerov**, Senior Manager, KPMG

Panelists:

Patrik Frei, Founder and CEO, Venture Valuation

Tim Dyer, CEO, Neurosterix

Valentin Piëch, Managing Partner, BioMedVC

Andreas Wallnöfer, Serial Biotech Entrepreneur

Presented by **GIBSON DUNN** **K** Kellerhals Carrard

16:00-16:45 Panel 34

Bridging continents: Navigating US funding for Swiss biotechs

This panel brings together key stakeholders from both sides of the Atlantic to explore the opportunities and challenges of securing US funding for Swiss biotech companies. Investors and representatives from Swiss biotechs will share their insights on the current landscape, discuss strategies for successful fundraising, and highlight the unique advantages and potential hurdles faced by Swiss firms in the US market.

Moderation: **Branden C. Berns**, Partner, Gibson, Dunn & Crutcher

Panelists:

Matthias Bodenstedt, CFO, MoonLake Immunotherapeutics

Nicolas Mosimann, Partner, Kellerhals Carrard

Melanie Rolli, Group CEO, Helsinn

Nate Chang, Operating Partner Life Sciences, Playground Global

Brains helping brains and scientists funding scientists: Can decentralized science enhance the biotech funding landscape?

Decentralized funding and decentralized science are a powerful combination that is democratizing the funding and science aspects of the risky but sometimes rewarding investments in new medicines for unmet medical needs. While IP ownership is regulated in a classical manner, IP-NFTs (Non-fungible tokens) allow for limited licensing to buyers. Smart contracting through the blockchain adds to automation of transfer of ownership and licensing. Typically, IP-NFT token owners are also directly involved in the voting of projects. The latter has clear advantages over the traditional top-down decision-making in corporate structures.

Moderation: **Peter Groenen**, Head Translational Science / Consultant, Cerebrum DAO / Alpinuity Bio

Panelists:

Brian Magierski, Founding steward, serial entrepreneur, Cerebrum DAO

Sebastian Gensior, Founder, Slate Mountain Capital

Antonella Santucci Chadha, Founder, Chief Medical Officer, Board Member, Advisor, Women's Brain Foundation

Santosh Dixit, Chief Domain Expert (Healthcare and Life Sciences) Innovation Labs, Persistent Systems

Douglas Haggstrom, Lead, Antimicrobial Resistance & Life Sciences, Innovation Office University of Basel

Harnessing life science and NGO collaborations to drive social impact

Life Science Cares Switzerland (LSCS) connects the life sciences sector with local non-profits to empower disadvantaged kids and young adults in Switzerland. Join us for this panel discussion on collaborations between the life science community and local NGOs. Nadine Zahnd, Managing Director of LSCS, will share the organization's vision. Bill Burns, LSCS Ambassador, will explore the benefits for the life sciences community. Isabelle Dalli-Wyniger will examine corporate roles in philanthropy. Amanda Gogates will highlight the value of collaborations. Renate Gloggner will discuss volunteering's impact on employee satisfaction and how it helps turn corporate social responsibility into meaningful action. The session will be moderated by Patrick Amstutz, LSCS Founder.

Moderation: **Patrick Amstutz**, CEO, Molecular Partners, & President, Swiss Biotech Association

Panelists:

Bill Burns, Chair of the Board of Directors, Molecular Partners

Isabel Dalli-Wyniger, Head Global Philanthropy and Donations, Novartis

Renate Gloggner, EVP People and Community, Molecular Partners

Amanda Gogates, Managing Director, Wyss Zurich

Nadine Zahnd, CEO, Life Science Cares Switzerland

Bridging borders: Strategies in global partnering and deal making for biotech

Join us for a dynamic panel exploring the nuances and strategies of cross-border partnering and deal making in the life sciences sector. This panel brings together seasoned investors and business development leaders from around the globe to share insights on sourcing opportunities, structuring international deals, and forging strategic partnerships across markets.

We'll explore the nuances of working across geographies and highlight what it takes to create value through cross-border collaboration. Whether you're an investor, dealmaker, or business development executive, this session offers real-world perspectives on building successful global relationships in a rapidly evolving landscape.

Moderation: **Lorenzo Leoni**, Managing Partner, TiVentures

Panelists:

Karen Wagner, General Partner, Ysios Capital

Hanns-Georg Klein, Founder, Acmaias

Nate Change, Operating Partner Life Sciences, Playground Global

Sivadasan Krishnan, VP Search & Evaluation – Research & Technologies, Global Business Development Daiichi Sankyo

Presented by  YVC Collective

I can't take my eyes off you: Swiss innovation and why it attracts international investors

We talk about the Swiss innovation and how attractive it is for international investors and will hear the perspectives of an international VC investor, a Swiss incubator, and a biotech executive.

Moderation: **Gabriela Ecco**, Principal, +ND Capital | **Elena Battistello**, Analyst, Novartis Venture Fund

Panelists:

Daniela Couto, General Partner, BioGeneration Ventures

Virginia Ballotta, Manager New Ventures, BaseLaunch

Klaus Dugi, CEO, Vandria

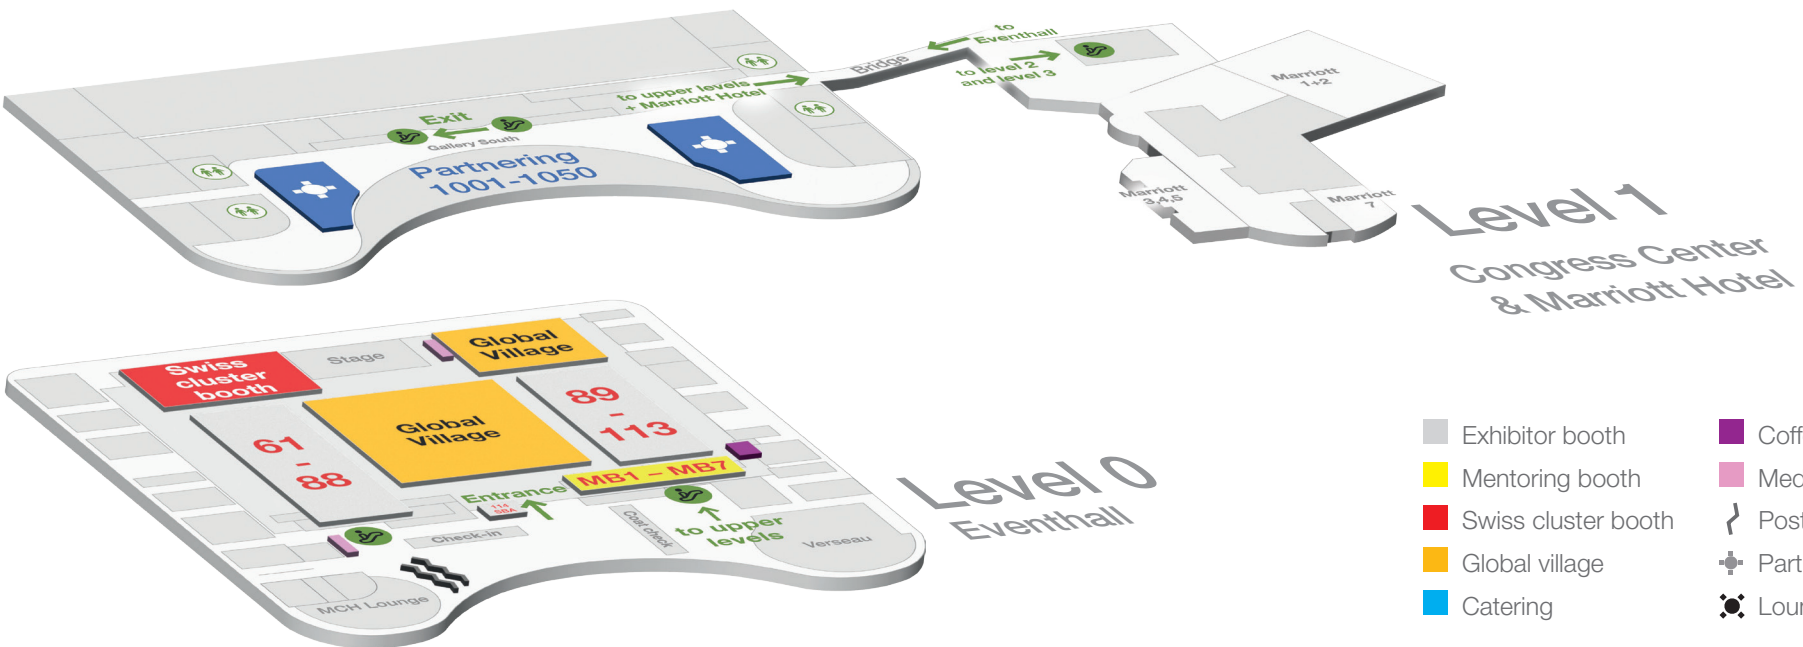

Floor map

This year's Swiss Biotech Day is taking place at the Congress Center Basel and the Eventhall. This venue overview will help you navigate the space and locate key areas during the conference. Detailed floor plans are on the following pages.

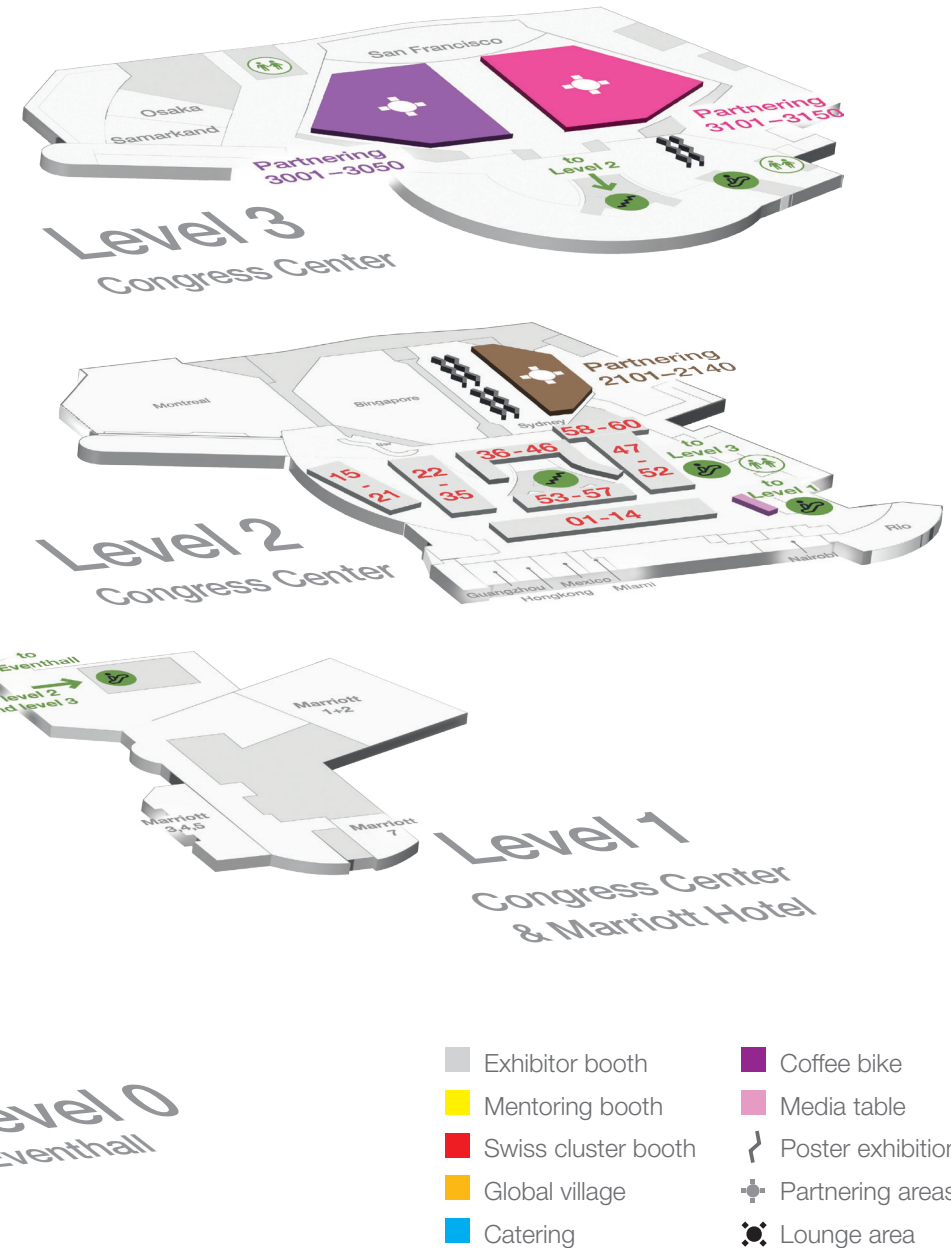

Scan the QR code to access the interactive floor plan, where you can easily locate session rooms, partnering areas, and exhibitor booths. To find an exhibitor's exact location and company information, select a booth number or exhibitor name. You can also explore the partnering, panel, and pitching areas for more details.

Not sure where to go? Just ask our friendly staff in the green 'Ask Me' T-shirts.

Supporting partners

Media partners

Host and event manager

Logistics and marketing partner

SWISS+ BIOTECH™

Collaborate with us and use the power
of our networking platforms

Save the date!

Swiss Biotech Day: May 4–5, 2026

For international networking at one of the leading global biotech conferences, with thousands of guests

Boosting global visibility

By promoting biotechs in the Swiss Biotech Directory, by disseminating their news, and with success stories

Financing and partnering

By connecting Swiss R&D biotech companies with global investors and industry partners on Swiss Biotech Ventures

Finding talent internationally

By matching Swiss job opportunities and talents on Swiss Biotech Orbit

Foster international collaboration

By uniting foreign biotech clusters with the Swiss biotech ecosystem through our Global Village

Professional development and education

At the Swiss Biotech Association Academy offered by academic institutions & regular Swiss Biotech Insight meetings

Save the date!

SWISS BIOTECH DAY 2026
